WHO WE ARE

The Stratus Networks Mission is to be the most nimble, customer focused telecommunications carrier in the industry. We have been servicing the telecommunications needs of our clients for over 20 years, while building and expanding a boutique fiber optic network throughout the central United States. We pride ourselves on holding long-term relationships and interconnection agreements with carriers big and small throughout the country, allowing our clients to connect seamlessly – locally, nationally & internationally. Businesses of all sizes place their trust in Stratus for all their communication service needs: Data, Voice, Internet & Cloud.

Stratus stands by its founding principle of providing a dynamic corporate culture emphasizing extraordinary customer service while offering the latest services in demand. We believe in giving back to communities by supporting local schools, non-profit organizations, and national charities.

WHAT SETS US APART

Stratus owns and operates a fiber backbone that ranges thousands of miles. Yet because there is no way to have 100% coverage, we've established close relationships with hundreds of domestic carriers and several international carriers. This allows our customers unprecedented solutions from a single source – Stratus Networks. In addition, our competitive pricing and excellent customer service are at the core of all the telecom products and services we provide.

STRATUS NETWORKS SERVICE BENEFITS

At Stratus, success is defined by our reputation for integrity and fair dealing. The Stratus Code of Business Conduct articulates our standards of business and professional ethics. We provide the finest, most reliable business communications services, support and pricing in the industry.

- Competitive rates and terms
- Dedicated project management on every account
- Knowledgeable repair staff 24/7/365
- Easy to read and understand billing
- Billed and serviced by Stratus
- Excellent references upon request

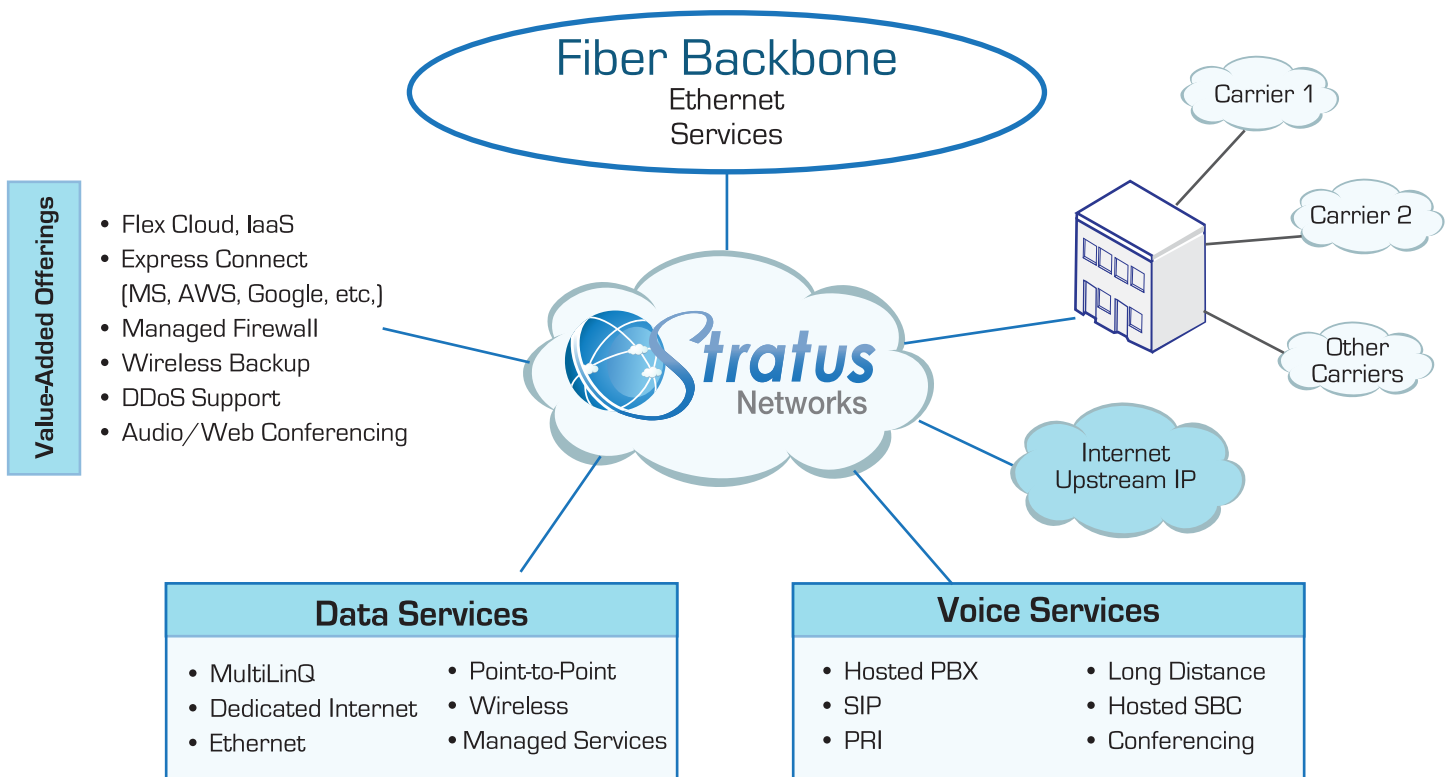

Company Overview

THE HUB THAT CONNECTS THE WORLD

Communications have become so critical and integrated among voice and data that companies of all sizes need a single source service provider who can deliver and support the necessary services to run and grow their business.

Stratus Networks owns and operates its own fiber backbone business hub that delivers a variety of voice and data solutions, depending on each customer's unique operating requirements. In addition, Stratus has interconnection agreements with some of the largest service providers in the country, allowing your business to connect locally, nationally and internationally.

Many large corporations place their trust in Stratus for all their communications services from MultiLinQ, Direct Internet Access, Hosted PBX, Voice, Ethernet and Wireless, DDoS and Managed Services.

ABOUT STRATUS NETWORKS
